

Good practices

Identifying and analysing successful experiences of innovation driven cluster, of planning policies in cluster development and local strategic partnership coordination.

Clustering

Creating a European network of companies and associated institutions (public - business - private - research sectors and end users) sharing similar interests regarding innovation policies and independent living of the elderly.

InnoHubs

Launching 14 regional innovation offices aiming to strength the knowledge and cooperation activities between actors focusing on eco-innovation and smart home for the elderly.

Policy strategies

Addressing ageing issues and devising new policy strategies that are capable of significantly improving the lives of the elderly.
